Irish Consulting Club

PJ Brennan & Molly Doyle

Executive Summary

PROBLEM:
New club needing platform for communication that lacks structure and organization for project assignments and information

SOLUTION:

- Create project management software
- Ability to create and manage projects for each specific user
- Keep track of future projects and meetings with the calendar

Promotes clarity across the organization from leadership to project leaders to project members.
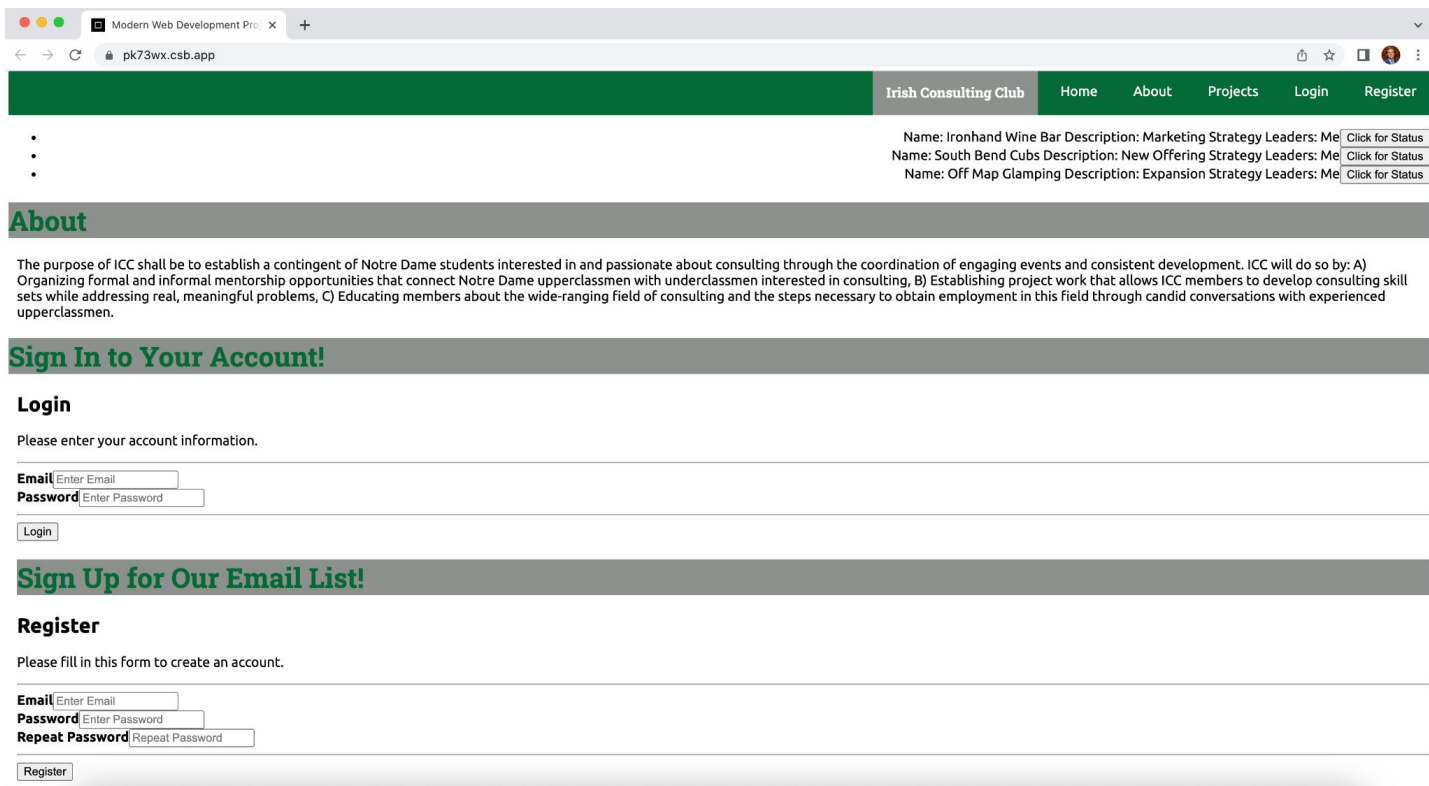

Technology: Single Page Architecture

Services:
1. Options
2. Projects

Components:
1. Home
2. NavBar
3. About
4. ProjectsContainer
5. Login
6. Register

# Feature 3 Screenshot

Technology: Multi-Page Architecture

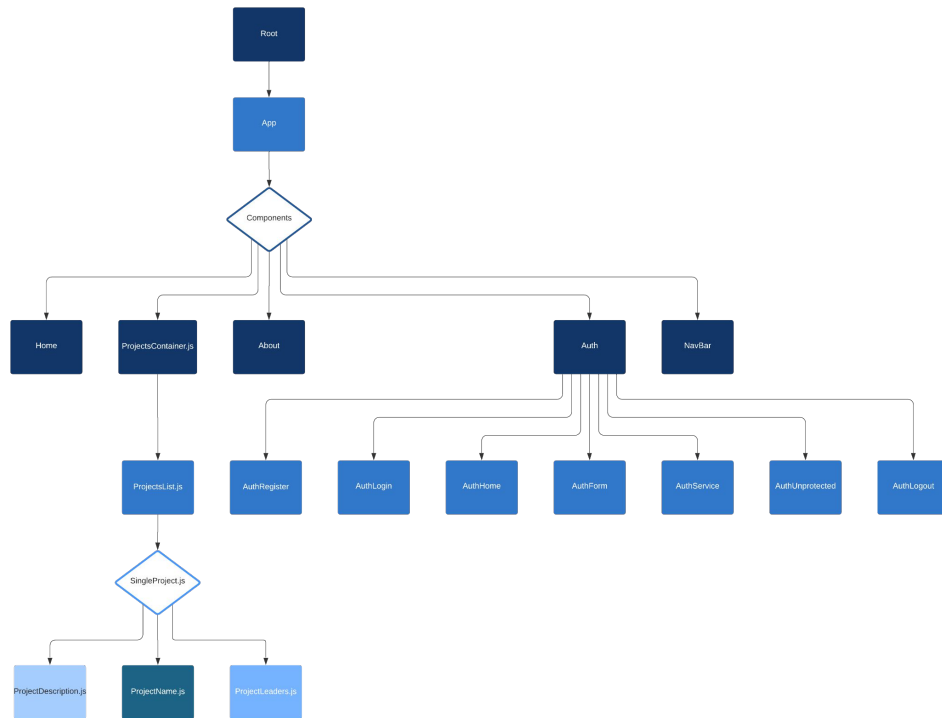

Services:
1. Options
2. Projects

Components:
1. Home
2. NavBar
3. About
4. ProjectsContainer
5. Login
6. Register

Feature 4 Screenshot
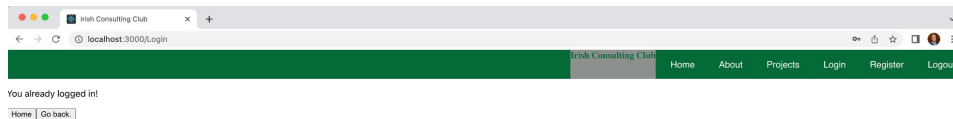

Technology: Auth Module

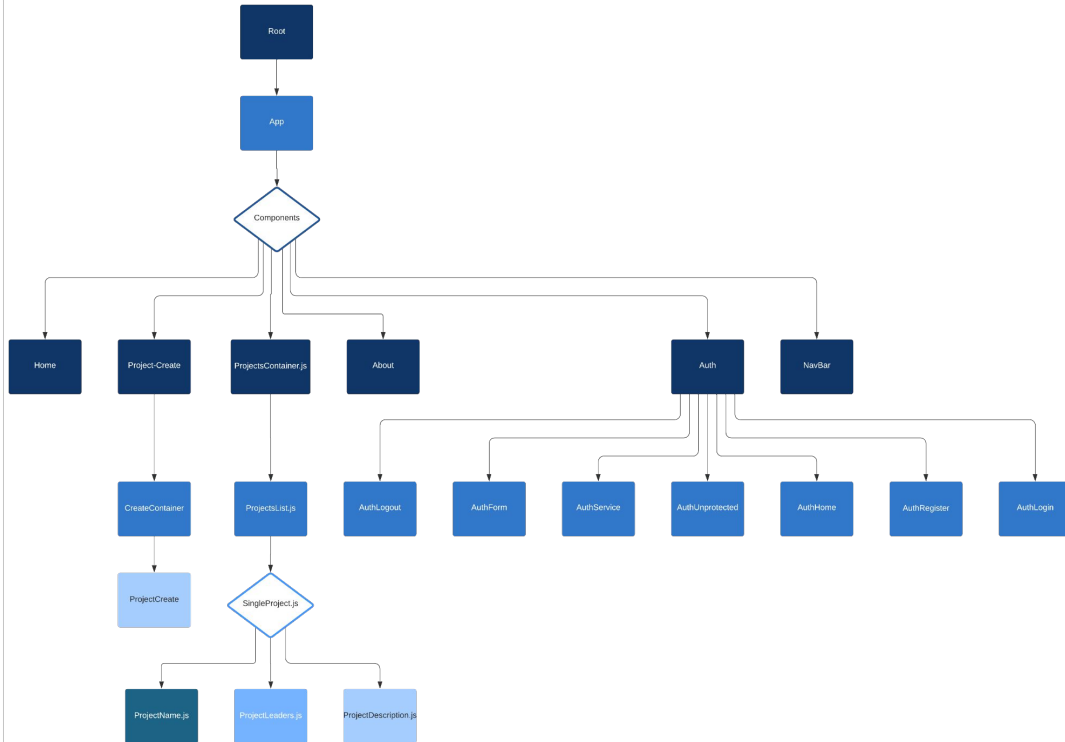

New Services:
1. ProtectedRoute
2. UnprotectedRoute

Auth Components:
1. AuthRegister
2. AuthLogin
3. AuthHome
4. AuthForm
5. AuthService
6. AuthUnprotected
7. AuthLogout

Feature 5 Screenshots

You have not been authorized. Please Register or Log In before looking for a project!

Technology: Student A Feature 6

Filter Implementation:
1. Filter projects by user
2. View all projects

Calendar Node API & Embedded Calendar:
1. Developer tool to add meetings to developer's google calendar
2. Embed club calendar for users

Improve CSS & Content:
1. Make website more aesthetic & approachable

Technology: Student B Feature 6

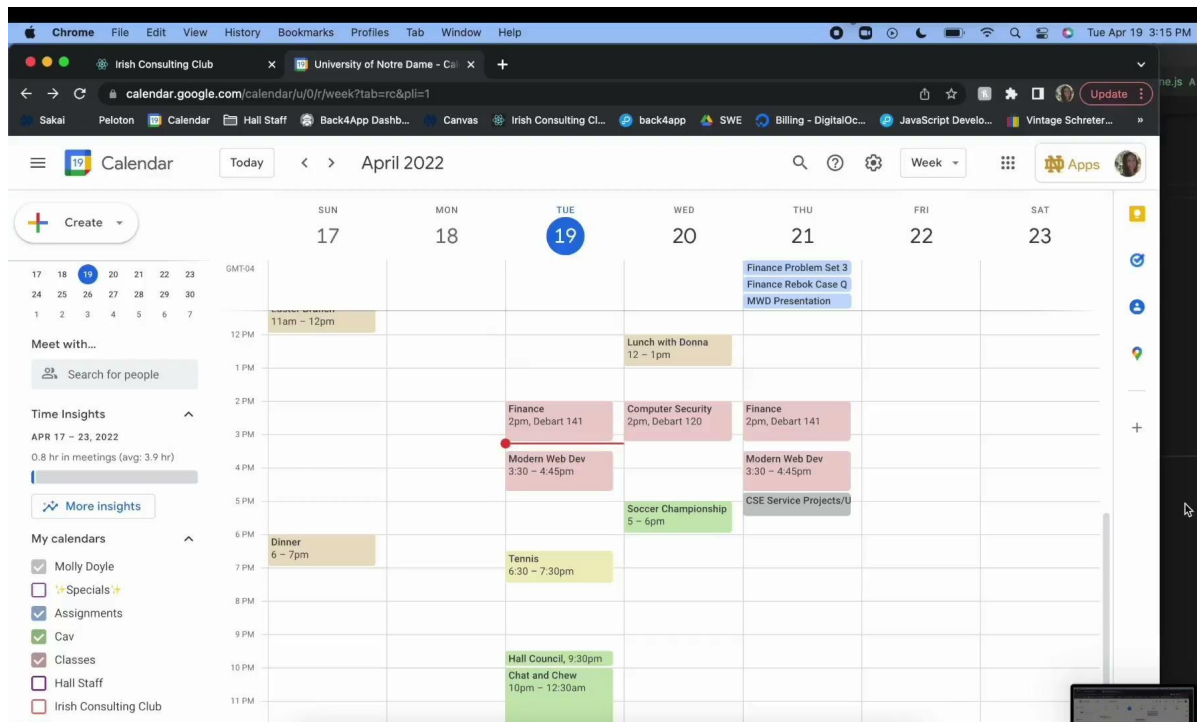

New Services:
1. CreateProject

Project-Create Components:
1. CreateContainer
2. ProjectCreate

Digital Ocean Host URL:
https://my-app-rkf3p.ondigitalocean.app/

Calendar Node API Demo

Next Steps

1. Integrate this site across the club with enhanced functionality for leadership and project leaders
2. Request feedback for new features or re-developed interface
3. Create outward facing marketing components to demonstrate previous work to potential clients
4. Integrate calendar API functionality into front end
